Empathy Map

Create an empathy map to understand your customer/user from four perspectives - what they Say, Think, Do, and Feel - in relation to the problem your project addresses. This helps the team build a customer-centric solution.

SAYS • “I have multiple loans and EMIs to manage.” • “I don't know which loan I should repay first.” • “I need one place to track all my loans.” • “I wish I had better financial guidance.”	PERS ONA NAM E <i>Borro wer / Loan Custo mer</i>	THINKS • “Will I be able to repay my loans on time?” • “How can I reduce my debt faster?” • “Am I making the right financial decisions?” • “Can AI help me improve my financial health?”
DOES • Tracks EMIs manually using notebooks or spreadsheets. • Checks loan balances through different banking apps. • Searches online for debt management advice. • Pays EMIs every month and tries to avoid late payments.		FEELS • Stressed due to multiple loan repayments. • Worried about financial stability. • Confused by different loan terms and repayment options. • Hopeful that an AI-powered solution can simplify debt management.
