Project Name	FinRelief AI – AI-Powered Debt Relief & Financial Recovery Platform
Maximum Marks	3 Marks

Define Problem Statements (Customer Problem Statement Template):

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for your customers' challenges. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Example:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A person managing multiple loans and EMIs	Manage my loans, track EMIs, and improve my financial health	I don't have a single platform that provides loan tracking, financial analysis, and personalized debt settlement suggestions	Existing financial applications lack AI-based insights and personalized recommendations	Stressed and uncertain about managing my debt and improving my financial future.
